

ANNUAL REPORT
OF
THE CONGRESSIONAL PRINTER,
SHOWING

The condition of the Public Printing, Binding, &c.

DECEMBER 4, 1871.—Ordered to lie on the table and be printed.

OFFICE OF THE CONGRESSIONAL PRINTER,
Washington, December 4, 1871.

SIR: I have the honor to transmit the nineteenth annual report of this office, in order that it may be laid before the Senate.

I am, sir, with due respect, your obedient servant,

A. M. CLAPP,
Congressional Printer.

Hon. SCHUYLER COLFAX,
President of the Senate.

OFFICE OF THE CONGRESSIONAL PRINTER,
Washington, November 30, 1871.

To the Senate and House of Representatives :

In conformity with the provisions of the law regulating the public printing, I have the honor to submit my annual report, "showing the exact condition of the printing, binding, and engraving, the amount and cost of such printing, binding, and engraving, the amount of paper purchased for the same, and such further information as may be within his [my] knowledge in regard to all matters connected therewith;" also, a statement showing "the number of hands employed, and the length of time each has been employed." The tabular statements accompanying this report are made up for the year ending on the 30th of September, 1871, and are as follows :

- No. 1. Showing the documents printed by authority of law, or by order of either House of Congress, the cost of printing and binding them, and the manner in which they were distributed.
- No. 2. Showing the cost of the printing and binding ordered by the executive and judicial departments of the Government.
- No. 3. Showing the disbursements on account of the public printing.
- No. 4. Showing the disbursements on account of paper for the public printing.
- No. 5. Showing the disbursements on account of the public binding.
- No. 6. Showing the disbursements on account of lithographing and engraving for the Senate and House of Representatives, and for copies in *fac-simile* of maps, plats, diagrams, &c., for the use of the Supreme Court of the United States.

- No. 7. Showing the estimated cost of work unfinished on the 30th of September, 1871.
 No. 8. Comparative aggregate statement showing the earnings and disbursements for the year ending September 30, 1871.
 No. 9. Showing the number of hands employed, the length of time each was employed, and the amount earned by each, for the year ending September 30, 1871.

COST OF THE PUBLIC PRINTING AND BINDING.

Statements Nos. 1 and 2 will show the *approximate* cost of the public printing and binding for each Department of the Government during the year ending on September 30, 1871, as it appears on the books of this office. The Statement No. 1, exhibiting the cost of the printing, binding, and lithographing and engraving for Congress, is given very much in detail, with the view of showing the cost, as nearly as is practicable, of each of the annual reports and other public documents which were printed in excess of the usual number, (1,650 copies, and 50 copies for the use of the Librarian of Congress,) under a resolution of Congress, and the manner in which they were authorized to be distributed. The *actual* disbursements of the office, as detailed in Statements Nos. 3, 4, 5, and 6, were as follows :

For the public printing.....	\$615, 021 41
For paper for the public printing.....	483, 108 50
For the public binding.....	508, 442 53
For lithographing and engraving for Congress.....	16, 270 67
For mapping for the Supreme Court of the United States.....	1, 421 70
For salaries, &c., in the office of the Congressional Printer.....	12, 514 00

By reference to Statement No. 1 it will be seen that a large number of the public documents ordered to be printed, either by law, by order of the Senate, or the House of Representatives, were for distribution by the Executive Departments and Bureaus.

The amount realized during the year from the sale of paper, paper-shavings, documents, &c., is \$34,439 53, which has been deposited in the Treasury of the United States, as required by law.

The following table exhibits the disbursements of this office, under their respective headings, during the year ending September 30, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, and 1871, viz :

Year.	Office of the Superintendent.	Public printing.	Paper for the public printing.	Lithographing and engraving.	Public binding.	Mapping for the United States Supreme Court.	Total.
1863....	\$13, 210 97	\$285, 660 80	\$830, 802 06	\$64, 126 38	\$223, 945 80	\$1, 417 746 01

1870....	14, 188 44	632, 690 82	418, 974 21	64, 929 21	477, 603 74	1, 473 50	1, 609, 859 92
1871....	12, 514 00	615, 021 41	483, 108 50	16, 270 67	508, 442 53	1, 421 70	1, 633, 778 81

DISTRIBUTION OF DOCUMENTS.

Of all executive and miscellaneous documents and reports of committees, there are printed, as the usual number, 1,650 copies for the Senate, and 1,675 for the House; and also 875 copies of bills and resolutions for the Senate and House, each. For information, I would state that these are distributed in accordance with the following schedule :

Where delivered.	Senate documents and reports.	House documents and reports.	Senate bills and joint resolutions.	House bills and joint resolutions.
Document-room of the House.....	265	265	340	340
Office of the Clerk of the House	20	149	20	308
Sergeant-at-Arms of the Senate	156	124	230	130
Office of the Secretary of the Senate.....	6	6	15	8
Folding-room of the Senate	190	170
State Department.....	5	5	10
Reserved for binding.....	958	1,087
For Librarian.....	50	50
For file copies, &c.....	50	39	50	29
Total number printed.....	1,650	1,675	875	875

The reserved documents are bound in volumes of appropriate size, (in sheep and calf,) and are distributed as follows:

Where delivered.	Senate documents.	House documents.
Senate document-room.....	112	112
House document-room.....	263	361
Senate folding-room.....	43
Department of State.....	60	60

Library of Congress	52	52
Library of the House of Representatives	7	30
Library of the Court of Claims	2
Congressional Printer.....	1
Total reserve.....	958	1,087

Such number of *extra* copies of the public documents are printed as are authorized by law, or may be directed by the special order of the Senate and House of Representatives; and these are distributed in the manner directed by law or by the House ordering them.

PAPER FOR PRINTING.

The fourth section of the act of July 27, 1866, gives to the Joint Committee on Printing the exclusive control of contracting for paper for the public printing, and of "fixing a standard of paper for the different descriptions of congressional and executive printing." Under the direc-

tion of the committee contracts were entered into for supplying any required quantities of the various kinds for the year ending on the 31st December, 1871, with the following persons :

CLASS 1.—*Fine uncalendered printing paper, 24 by 38 inches, 45 pounds per ream of 500 sheets :*

John A. Shober, Lancaster, Pennsylvania, 15,000 reams, at 14.75 cents per pound.
 H. M. Clarke & Co., Boston, Massachusetts, 2,000 reams, at 14.90 cents per pound.
 Wheelwright, Mudge & Co., Baltimore, Maryland, 2,000 reams, at 15.04 cents per pound.

Seymour Paper Company, New York City, 1,550 reams, 17 by 22 inches, folio, at 22.25 cents per pound.

CLASS 7.—Paper for Post-Office blanks :

Wheelwright, Mudge & Co., Baltimore, Maryland, 500 reams, 20 by 26 inches, 42 pounds, at 15.34 cents per pound.

Mullen & Parker, Mt. Holly Springs, Pennsylvania, 500 reams, 20 by 36 inches, 42 pounds, at 15.66 cents per pound.

Wheelwright, Mudge & Co., Baltimore, Maryland, 400 reams, 26 by 32 inches, 46 pounds, at 15.34 cents per pound.

Mullen & Parker, Mt. Holly Springs, Pennsylvania, 400 reams, 26 by 32 inches, 46 pounds, at 15.66 cents per pound.

Wheelwright, Mudge & Co., Baltimore, Maryland, 400 reams, 25 by 36 inches, 52 pounds, at 15.34 cents per pound.

Mullen & Parker, Mt. Holly Springs, Pennsylvania, 100 reams, 25 by 36 inches, 52 pounds, at 15.66 cents per pound.

Wheelwright, Mudge & Co., Baltimore, Maryland, 300 reams, 25 by 36 inches, 52 pounds, at 15.69 cents per pound.

Wheelwright, Mudge & Co., Baltimore, Maryland, 250 reams, 18 by 29 inches, 30 pounds, at 15.34 cents per pound.

Wheelwright, Mudge & Co., Baltimore, Maryland, 250 reams, 18 by 29 inches, 30 pounds, at 15.69 cents per pound.

CLASS 8.—Sized and calendered tinted printing papers :

H. M. Clarke & Co., Boston, Massachusetts, 500 reams, 22 by 28½ inches, 40 pounds at 17.60 cents per pound.

H. M. Clarke & Co., Boston, Massachusetts, 1,000 reams, 25½ by 40 inches, 55 pounds, at 17.70 cents per pound.

Statement No. 4, appended to this report, exhibits the exact quantity of each kind of paper purchased during the year ending on the 30th of September, 1871, and the cost per ream. The aggregate amount expended was \$483,108 50. There remained on hand at the end of the year papers of various kinds, as will be seen by reference to the same statement, amounting in value to \$130,514 03.

I am gratified to state that there has been a manifest improvement in the character of nearly every class of the paper furnished this office under contracts during the last year, and, almost without exception, the several contractors have shown a commendable desire to fulfill their obligations to the Government with fidelity and promptness. The Joint Committee on Printing have, in the exercise of their duties and powers in awarding contracts, been successful in guarding this branch of the service from delinquency and abuse.

In this connection I would suggest that the present policy of dividing classes of paper into small lots, in making contracts for a supply, is open to objection. It occurs to me under experience that uniformity in texture and complexion of a line of papers can be better secured by contracting for the entire class in one contract, and with one manufacturer, than by awarding the contracts in small lots, as is the present policy. It is my opinion that uniformity of complexion and texture can be secured by the change indicated, and further, that more economical prices can be obtained where the contracts take in larger quantities

One thing is very certain, a better class of documentary printing can be secured for the Government, under a line of uniform papers, than when contracts are made for small lots and with various manufacturers of diverse taste, facilities, and results.

LITHOGRAPHING AND ENGRAVING FOR CONGRESSIONAL DOCUMENTS.

The aggregate amount paid for this character of work was \$16,270 67, the details of which will be found in Statement No. 6.

MAPPING FOR THE SUPREME COURT OF THE UNITED STATES.

Some of the records of the Supreme Court of the United States which are ordered to be printed are accompanied by maps, plats, diagrams, &c., and a small number of copies in *fac-simile*, on tracing-linen, are required for the use of the court. These, for the last year, cost the sum of \$1,421 70.

THE PUBLIC BINDING.

The amount expended on account of the public binding during the year ending on September, 30, 1871, was \$508,442 52; the details of which will be found in Statement No. 5. The value of the materials on hand at the end of the year was \$95,610 54.

In this connection I would state that heretofore, under the limited resources of the bindery, a large number of volumes had accumulated, that it was not possible to bind. Under the increased facilities of the office this accumulation will be gradually overcome, and the foreman of binding hopes, within the ensuing year, to bring the demands upon the bindery down to the current work.

CONDITION OF THE PUBLIC PRINTING AND BINDING.

Attached to Statement No. 1 will be found a list of the documents, &c., unfinished on the 30th of September, 1871, the end of the year for which the statistical portion of this report is made up.

DEPARTMENT PRINTING AND BINDING.

By reference to the tables relating to the printing for the several Executive Departments of the Government, it will be apparent that while in some Departments there is a decrease, in others there is an increase; the aggregate, however, showing an excess of \$58,868 over last year. I would call attention to another feature in these statistics: while there is a large increase in the product of labor for these Departments, the paper consumed for it costs \$9,334 39 less than that used for that work in the year previous. This difference is the result of the favorable contract made for paper for that class of printing—the prices paid being 21 cents a pound against 22 cents last year, with a decided improvement in quality.

The most marked increase in the demand for departmental printing

has been in the Post-Office Department, as will be seen by the following comparative statements :

	Printing.	Paper.	Binding.
1871.....	\$75,064 60	\$49,926 01	\$40,665 89
1870.....	38,444 58	37,624 46	28,536 35
Excess.....	<u>36,620 02</u>	<u>12,301 55</u>	<u>12,129 54</u>

This is occasioned by the rapid growth of the business connected with the postal interests of the country.

For the Treasury Department there has been a slight increase in the printing account, and a large decrease in binding. This last result has been occasioned by the fact that when the law went into force requiring that all the printing and binding for all the Departments of the Government should be done at this office, a large number of blank-books were manufactured for the several custom-houses throughout the country, last year, in excess of the immediate demand, and hence the requisitions for that class of work for the present year have been limited.

PATENT-OFFICE.

Under the law of January 11, 1871, abolishing the publication of the annual mechanical report of the Patent-Office, and substituting therefor a weekly report of specifications, with photo-lithographic illustrations, blank copies have been printed, photo-lithographed, and bound since the first day of July last. These volumes, which are small quarto, containing about 1050 pages each, are bound in a strong and expensive style, and are for deposit in each capitol of every State and Territory, in the clerk's office of the district court of each judicial district of the United States except when such offices are located in State or territorial capitals, and in the Library of Congress, that they may be used as evidence in the prosecution and adjudication of patent cases before the United States courts.

The following shows the expense of this work from July 1 to September 30, 1871 :

Printing specifications.....	\$13,967 38
Paper for same.....	2,659 75
Photo-lithographing.....	5,362 70
Paper for photo-lithographing.....	2,263 41
Binding.....	5,450 00
Total.....	<u>29,703 24</u>

STEREOTYPE FOUNDRY.

There having been heretofore some question raised as to the propriety and economy of having a stereotype foundry in connection with this office, I take pleasure in calling attention to the following exhibit for the year ending September 30, 1871:

Value of plates manufactured.....	\$23,519 25
Expended for labor and material for same	10,981 63
	<u>12,537 62</u>

BRANCH PRINTING-OFFICE.

For the convenience of the Treasury Department, a branch printing-office is continued in the basement of that building. Until the present time it has been indispensable, during the more hurried seasons of work, to enable this office to accomplish what has been demanded of its resources. Whether that necessity will continue hereafter, under the increased facilities of this office, time will determine. It has been efficiently managed by the assistant foreman in charge, and its economy is vindicated in its results.

The amount of printing done by it the last year is	\$124, 826 88
Labor for same.....	\$31, 293 22
Paper consumed.....	45, 406 89
	<hr/>
	76, 700 11
	<hr/>
Balance in favor of office.....	48, 126 77
	<hr/>

ENLARGEMENT OF THE BUILDING.

I refer with much pleasure to the enlargement of the building for the accommodation of this office, under the appropriation of \$45,000 made by Congress at its last session. Through the good judgment, economy, and taste of Edward Clark, esq., the architect of the Capitol extension, who had entire charge of the work, this addition has been erected in a neat, substantial manner, and within an unusually short space of time, and within the appropriation made therefor. The new building is one hundred and thirteen by sixty-three feet, four stories high, and is admirably arranged for convenience and comfort. It adds some thirty-three and one-third per cent. to the accommodating capacity of the establishment, and secures safety from fire, where heretofore there has been somewhat of exposure and danger to property.

This enlargement, while it adds to the architectural appearance of the entire structure, affords ample space, for the present, for a systematic organization of the physical and material resources of the office, thereby securing efficiency, economy, and expedition in the performance of the various duties connected with its management.

I have also made such other improvements on the premises as seemed to be necessary for the welfare of the property, the comfort of business, and to bring the exterior of the entire building into harmonious appearance throughout.

CONCLUSION.

It is but an act of simple justice that I should state in this connection, that whatever of efficiency and success has attended my administration during the past year, is attributable, in a great degree, to the allegiance and fidelity of my subordinates in their several departments and duties. They seem to have been inspired by a common desire to make this branch of the public service efficient and acceptable, and

have devoted their best efforts and energies to the duties and responsibilities of their several positions.

I desire to call attention of Congress to the compensation paid under the law to the four clerks, and foremen of printing and binding employed in this office, with the suggestion that the large increase of business involves a necessary accumulation of labor and responsibility that is not adequately remunerated in the salaries named. I would therefore suggest and recommend that the chief clerk, the financial clerk, and the foremen of printing and binding, be paid \$2,500 a year each, and that the other clerks be paid \$2,000 each. In this connection I would remark, that a proper discharge of the duties and responsibilities of these positions make it necessary that a portion of these incumbents should be engaged daily from 8 o'clock a. m. till 5 o'clock p. m., and the balance from 8.30 o'clock a. m. to 4 o'clock p. m. In no subordinate Department of the Government is the labor and responsibility so great, and the compensation therefor so small, as in this office.

I beg leave once more to earnestly call the attention of Congress to the importance of revising the law relating to the public printing, so far as it establishes the extra numbers of the reports of the Executive Departments and Bureaus of the Government to be printed for their use, respectively. It is evident that the necessities of these Departments, under the increasing growth and importance of the country, are rapidly augmenting. Under these demands the Departments require an increase of extra numbers of reports for their own use, and yet the statute declares that the Congressional Printer shall not print a greater number than is specified by law, unless ordered by either House of Congress. This condition of things is embarrassing, inasmuch as it brings the Congressional Printer between an executive demand and a plainly defined statutory prohibition, which he is inclined to respect until repealed.

An amendment of the law so as to meet the requirements of the several Executive Departments and Bureaus of the Government in this respect would remove all ground of differences and embarrassment on this question, and enhance the comfort of the Congressional Printer in the discharge of his duties.

All of which is respectfully submitted.

A. M. CLAPP,
Congressional Printer.
